### **Class Structures**

Classes are arranged according to ability and appropriate age groupings. This provides the best environment for social and development of skills for your child. Depending on the stage and availability we try to provide options for days and times to provide flexibility in the schedule

### **Under 5 - Class Options**

Children that are 3.5 years of age or younger require parent involvement once they turn 3.5 or have been identified as ready to progress then they move to an independent class that does not require the additional parent support.

### **Girls Class Progressions**

Girls move through our program stages of Jumpstarters, Blasters and Exploders. Once they have graduated through these stages they may move into other programs such as Team Gym, Steps or be invited into a competitive program.

Girls skills are evaluated at our Carnivals which are held twice a year, where they receive a certificate outlining skill development and a medal based on their competency.

### **Boys Ninja Progressions**

Boys will be invited to attend a Ninja Mission when their coach evaluates that they are ready to move to the next level. The Ceremony will test their skill and knowledge of the Ninja Creed.

There are currently 4 stages of the Ninja Program (White, Yellow, Green and Blue)

### **Coach Grievance**

If you have an issue with a coach you need to arrange to discuss with the Head Coach please do not contact coaches directly. Our club member protection officer is Kathleen Brecknell

### **Class Concerns**

If you wish to discuss your child's progress or concerns then this is done through the Head Coach and you need to contact the office so they can contact you when available.
